

BUILDING QUALITY PRODUCTS SINCE 1913.

Loved by many generations, the Stanley brand has a rich near-100 year history. Born from inventor William Stanley Jr. who forever changed the way hot drinks were consumed in 1913, he fused vacuum insulation and the strength of steel in one portable bottle inventing the all-steel vacuum bottle we know and love today.

OUR STORY

Loved by many generations, the Stanley brand has a rich near-100 year history. Born from inventor William Stanley Jr. who forever changed the way hot drinks were consumed in 1913, he fused vacuum insulation and the strength of steel in one portable bottle inventing the all-steel vacuum bottle we know and love today.

In the century since, his vacuum bottle evolved from concept to icon and has become an essential part of workdays, road trips and outdoor adventures.

1913 William Stanley Jr. invents the all-steel vacuum bottle and revolutionizes the industry by proving steel can be used in place of glass to insulate.

1915 The Stanley insulating company begins mass production of the Stanley vacuum bottle, insulating jugs and beverage servers.

1942 Stanley bottles are first carried on WWII B-17's, beginning a long history of use on military aircraft.

1953 The iconic hammertone green is introduced for the first time on a Stanley bottle.

1960's A majority of airlines, ocean liners, railroads, and hospitals around the country now use Stanley commercial products.

1970's Modernized Stanley vacuum bottles gain popularity with the American workforce, making it the most popular vacuum bottle in history.

1995 William Stanley Jr., who had obtained 129 patents related to both electricity and insulation during his career, is inducted into the National Inventors Hall of Fame.

2002 Seattle, WA based PMI purchases the Stanley brand streamlining the design and manufacturing process while staying true to the brand's legacy of durability and relevance.

2006 The Outdoor Industry welcomes the Stanley brand. Within a few short years, Stanley Outdoor products will have made explorations all over the world including Mt Everest, North and South poles.

2008 eCycle®, our proprietary blend of recycled material is first introduced in the Stanley Recycled & Recyclable 16oz Tumbler, first to offer reusable, BPA-free recycled and recyclable coffee mugs.

2009 The new Stanley Nineteen13 collection that fuses durability, independent style with environmental responsibility is introduced for a next generation of users.

2011 The Stanley brand launches the Adventure Series geared towards sportsmen who love to camp, fish, or tailgate.

EARTH-FRIENDLY MAN LUNCH

Since 1913, we have been delivering superior food and beverage gear for rugged, active lifestyles and remain dedicated to this simple promise: buy STANLEY products, get quality gear. Built for life.

Features & Benefits:

- Crushproof shell. Protects packed lunch.
- Stainless steel construction. Man up from plasticware.
- Recycled eCycle plastic liner. New life for old plastic.
- Streamlined design. Quick cleaning and easy packing.
- Lifetime warranty.

* Recycled

Plastic liner is made with eCycle, our proprietary mix of recycled plastics containing 100% recycled polypropylene of which 25% is post consumer content.

** Recyclable

Liner is recyclable where #5 plastics are collected and recycled. For facilities in your area go to www.stanley-pmi.com/ecycle.

*** Designed for Disassembly

Plastic liner can be removed from stainless steel shell for recycling.

Dimensions: 6" x 9" x 2 1/4"

Classic American Family heirloom

By Brandan West from Ozark, Missouri, a Stanley user for 15 years

I carry my Stanley in memory of my father; he died when I was young. At eight years old I attended his funeral, and since I've been hanging on to the memories I have of him, using them as fuel to grow into the man I've become. My father, though an MIT grad, was an urban commercial roofer by trade. He was a genius of a man, and blue collar by choice. He loved his job, and he worked really hard at it. (Consequently it was the job he loved that took him from this life). I recall my father coming home from work every day, wearing jeans and a work shirt covered in tar, sweat saturated as eviden...

Winter Camping in Wisconsin

By Lee Sensenbrenner from Madison, Wisconsin, a Stanley user for 12 years

The Chequamegon National Forest in northern Wisconsin issues a \$5 permit to cut down a Christmas tree, and it's always a fun challenge to hike into the woods in late December in search of a presentable one. The trip is an overnight mission I typically make alone. After hiking or skiing along the Ice Age National Scenic Trail, I make camp somewhere far off in the glowing winter night. The first time I went on this trip, the snow was already two feet deep and the top half was a weightless, swishing sparkle due to the extreme cold. The digital screen on my GPS unit faded and gave out in th...
